

Carotid Ultrasound Protocol:

- Bilateral CCA Prox, Mid and Distal
 - Trans – Gray Scale
 - Sag – Gray Scale, Color Doppler, Pulse Wave
 - -Measure Peak Systolic and Diastolic (put in package for ratio)
- Bilateral Bulb
 - Trans
 - Sag- Gray Scale and Color Doppler
- Bilateral Bifurcation
 - Trans- Gray Scale and Color Doppler
- Bilateral ECA Prox
 - Sag – Gray Scale, Color Doppler, Pulse Wave
 - -Measure Peak Systolic and Diastolic (put in package)
- Bilateral ICA Prox, Mid and Distal
 - Sag – Gray Scale, Color Doppler, Pulse Wave
 - -Measure Peak Systolic and Diastolic (put in package for ratio)
- Bilateral Vertebral Artery
 - Sag – Gray Scale, Color Doppler, Pulse Wave
 - -Measure Peak Systolic and Diastolic (put in package)

~ If the Vertebral Artery is Retrograde or Occluded – Evaluate the Subclavian
